“Be the change that you want to see in the world.”

Summary

Software Developer with hands-on experience in backend development, automation tools, and interactive systems. Skilled in Python, problem solving, and clean software architecture, with growing experience in machine learning applications and data-driven solutions. Passionate about building scalable and intelligent software systems while continuously learning new technologies.

Work Experience

EfficaTech

SOFTWARE DEVELOPER

Egypt

Jan. 2026 - Present

- Developed software solutions using Python, focusing on automation workflows and data processing tasks.
- Built reliable web automation and data collection pipelines using Playwright and Apify.
- Implemented and maintained application logic while ensuring clean, scalable, and maintainable code.
- Performed debugging, refactoring, and performance improvements across development projects.

Aim Technologies

FULL STACK DEVELOPER

Cairo, Egypt

July. 2024 - Aug. 2024

- Developed responsive dashboard pages using React, translating Figma designs into pixel-accurate and production-ready user interfaces.
- Built reusable frontend components and implemented client-side logic for web applications.
- Improved UI functionality by fixing minor bugs across frontend and backend codebases.
- Worked primarily on frontend development within a MERN stack environment.

Enactus Club

EVENT PLANNING TEAM MEMBER

Egypt

Oct. 2022 - June. 2023

- Organized and supported logistics for club events and workshops.
- Collaborated with team members to coordinate event planning and execution.
- Contributed to improving workshop delivery and participant engagement.

El Osra Al Moslema Nursery

TEACHER

Giza, Egypt

July. 2021 - Sep. 2021

- Communicated educational content to young children using simple and engaging methods.
- Supported classroom activities and supervised learning exercises.
- Developed patience, communication, and teamwork skills.

Education

Arab Academy for Science, Technology & Maritime Transport — Smart Village Campus

B.S. IN COMPUTER SCIENCE

Oct. 2022 - Present

- GPA: 3.71 / 4.00

Skills

- Programming Languages: Python, JavaScript, TypeScript, C++, Java, C#
- Frontend Development: React, Tailwind CSS, CSS, Responsive UI Development, Figma-to-Code Implementation
- Backend & Tools: Node.js basics, REST API integration, debugging and refactoring
- Automation & Data Tools: Playwright, Apify, Web Automation Pipelines
- Software Engineering Concepts: OOP, Clean Code Principles, Problem Solving, Data Structure & Algorithms
- Other Technologies: Git, Linux, Development Workflow Tools
- Interests: Machine Learning, Software Optimization, Intelligent Systems, LLMS, Deep Learning, Agentic AI

Additional Information

- Languages: Arabic (Native), English (Fluent)
- Interests: Software development, Machine learning, automation systems, football
